

## Hiking trails

Wandering through the woods of Drawa Forest is the best way to know that area. Within the area of the Drawa National Park about 90 kilometres of walking trails have been set out that are available all year round, from dawn to dusk, also for cycling and cross-country skiing.

---

### **Attention!**

*For security reasons, avoid walking in the woods during a storm and high winds. Do not look for shelter under the canopies, and watch out for ice caps in winter..*
